SUMMARY

Aspiring third year Computer Science Engineering student and Full Stack Developer Intern with hands-on experience delivering responsive and scalable web applications. I possess a strong foundation in frontend technologies, backend integration, RESTful APIs, and production-ready deployment using modern web stacks. I have collaborated with cross-functional teams to build user-friendly applications that enhance usability, performance, and maintainability.

EXPERIENCE

Full Stack Developer Intern

Sep 2025 – Present

Hindusthan College of Arts and Science - PR Team (Official Internship)

- Engineered and maintained responsive web applications for multiple educational institutions.
- Constructed reusable frontend components and backend APIs using React.js, Node.js, and Express.js.
- Executed the migration from Create React App (CRA) to Vite, improving build speed and development efficiency.
- Worked closely with designers and developers to strengthen UI consistency, navigation flow, and component reuse.

EDUCATION

B.E. in Computer Science Engineering

Aug 2023 – May 2027

Hindusthan Institute of Technology

CGPA 8.5 / 10

Higher Secondary Education

May 2022 – May 2023

AVMS Matric Higher Secondary School, Ramanathapuram

Percentage 86.5%

PROJECTS

College Website

Hindusthan Institute of Technology

Live <https://hitechcse.netlify.app>

- Delivered a responsive college website as part of a five member development team.
- Integrated modern UI components, client side routing, and structured layouts using React.js and Tailwind CSS.

Water Contamination Prevention System

Live <https://pixel-pirates-beta.vercel.app>

- Developed a prototype web application focused on identifying and preventing water contamination risks.
- Designed responsive user interfaces supporting public awareness and safety focused use cases.

Personal Portfolio Website

Live <https://sridhar-dev-portfolio.vercel.app>

- Designed a personal portfolio presenting projects, technical skills, and professional experience.
- Deployed the application on Vercel using a streamlined and production-ready build configuration.

SKILLS

Frontend Technologies

HTML, CSS, JavaScript, React.js, TypeScript, Tailwind CSS, Responsive Web Design

Backend Technologies

Node.js, Express.js, REST APIs

Tools and Platforms

Git, GitHub, Vite, npm, Netlify, Vercel, Visual Studio Code

Programming Languages

C, Python, Java
